Experience

Product Catalog Creator - Helping Ny.Ian Food Co. Showcase Delicious Offerings

Ny.Ian | 2021

Create an attractive product catalogue, combining creative content and visual design to highlight culinary offerings. Collaborate for accurate representation, increase customer engagement, and promote the Ny.Ian F&B experience.

Activist at Binus Nusantara Computer Club

Binus Nusantara Computer Club | 2021 - 2022

Participating in Basic Leadership Training to enhance my abilities as an activist, focusing on developing both soft skills, such as communication and teamwork, and hard skills, including problem-solving and technical abilities.

Participant at INC 2022: National Coding Contest in Indonesia (ICPC Event)

Binus University | 2022

As a participant in the 2022 INC National Coding Contest in Indonesia, I effectively overcame complex coding challenges within the available time constraints, thereby improving my problem-solving skills and coding abilities.

Binus Fostering & Empowering Society

Binus University | 2023

As a member of the event committee, actively assists in the organization and implementation of the event.

Building PT Haliber Web

PT Haliber Jaya | 2023

Contracted to design and optimize a dynamic WordPress website, showcasing the company's logistics capabilities and enhancing their online presence.

Skills

I am well-acquainted in using NextJs (ReactJS) , Laravel(PHP) , ASP.NET (C#) , Java , C++ , SQL Server , Mongo DB , Git , MVC , OOP and RESTful pattern - I had implemented them in approximately a dozen of my personal projects

Experienced in creating user-friendly websites for various platforms, including mobile devices , using tools such as Figma and Photoshop, ensuring a seamless user experience. Additionally, skilled in graphic design for engaging digital and print media, with keen attention to detail and creativity.

About me

Hello! My name is Kelvin Giovanno, but feel free to call me Kelvin or Vin. I am a passionate problem-solver and solution creator, currently on my journey to become a full-stack developer. As a Computer Science student at BINUS University, I am honing my skills in both front-end and back-end development, as well as UI/UX design. I enjoy the challenges and opportunities that come my way and am always eager to learn and grow. My ultimate goal is to become a proficient and experienced software developer.
